

Miguel Ángel Hervás Herrera, PhD (Spain)

Miguel Ángel is a professional archaeologist and holds degrees in Geography and History from the Complutense University of Madrid, and PhD from the University of Castilla-La Mancha (Spain) with a Doctoral Thesis on restoration of built heritage. He is Secretary of the Spanish Association of Medieval Archeology, member of the Editorial Committee of the magazine "Boletín de Arqueología Medieval Española" and is part of the research teams of Global Digital Heritage (USA), of the Archaeological Research Center of the Isthmus-El Caño Foundation (Panama), and of the Archeology Laboratory, Heritage and Emerging Technologies of the University of Castilla-La Mancha (Spain). He is Individual Member of the Spanish Committee of ICOMOS (International Council on Monuments and Sites, UNESCO), and Expert Member of the International Scientific Committee on Archaeological Heritage Management, (ICAHM) of ICOMOS (UNESCO).

Miguel Ángel specializes in the development and application of techniques of prospecting, excavation and archaeological documentation, in the study of traditional and historical construction materials and techniques, in the study of vernacular architecture, and in conservation and restoration of the built heritage. He is an expert in the development and application of aerial photogrammetry techniques. He has directed or participated in research projects related to cultural heritage in Spain, Italy, Portugal, Morocco, Saudi Arabia, Turkmenistan, Uzbekistan, United Arab Emirates and Panama.

He has participated in almost two hundred courses, congresses, conferences and symposiums, and is the author of around one hundred articles and seven books on his speciality. His publications include the digital edition of his doctoral thesis, entitled *Conservación y restauración en Calatrava la Vieja. (1975-2010)* (URI: <http://hdl.handle.net/10578/8711>).
